Paul Wagner

Renowned Wine Expert
and Author

The Ancient World is not only the ancestral home of Western culture, but also the birthplace of wine. I am enthusiastic about sharing the story of wine, and the role it has played in our culture--almost as enthusiastic as I am about the wonderful wines that are being made in this part of the world. They are not only rooted in the soil of history, today they are also breaking new ground for quality, style, and character.
